

Mobile Health Care for the Modern Family

Families are facing unprecedented challenges when it comes to managing wellness. Despite technological advancements, the sudden changes to schedules and social opportunities have put immense strains on individuals and family relationships. Neeka aims to ease this difficulty by combining social connectivity and daily planning with a secure health wallet.

Structure

Neeka allows you to set goals and reminders for key health activities. These can then be shared with family, friends, providers, or other support persons for complete insight into your wellness.

Connectivity

Communication with the right individuals and groups is crucial for one’s wellness. Neeka facilitates secure chat groups and messages between family, friends, and providers, to maximize goal adherence.

Complete Insight for Improved Wellness Using the World Health Organization’s Social Determinants of Health as a foundation.

Interoperability

Security

Agency

Secure All-in-One Platform

Take control of your health, wellness, and goals in a single secure platform

Peer-to-Peer Connectivity

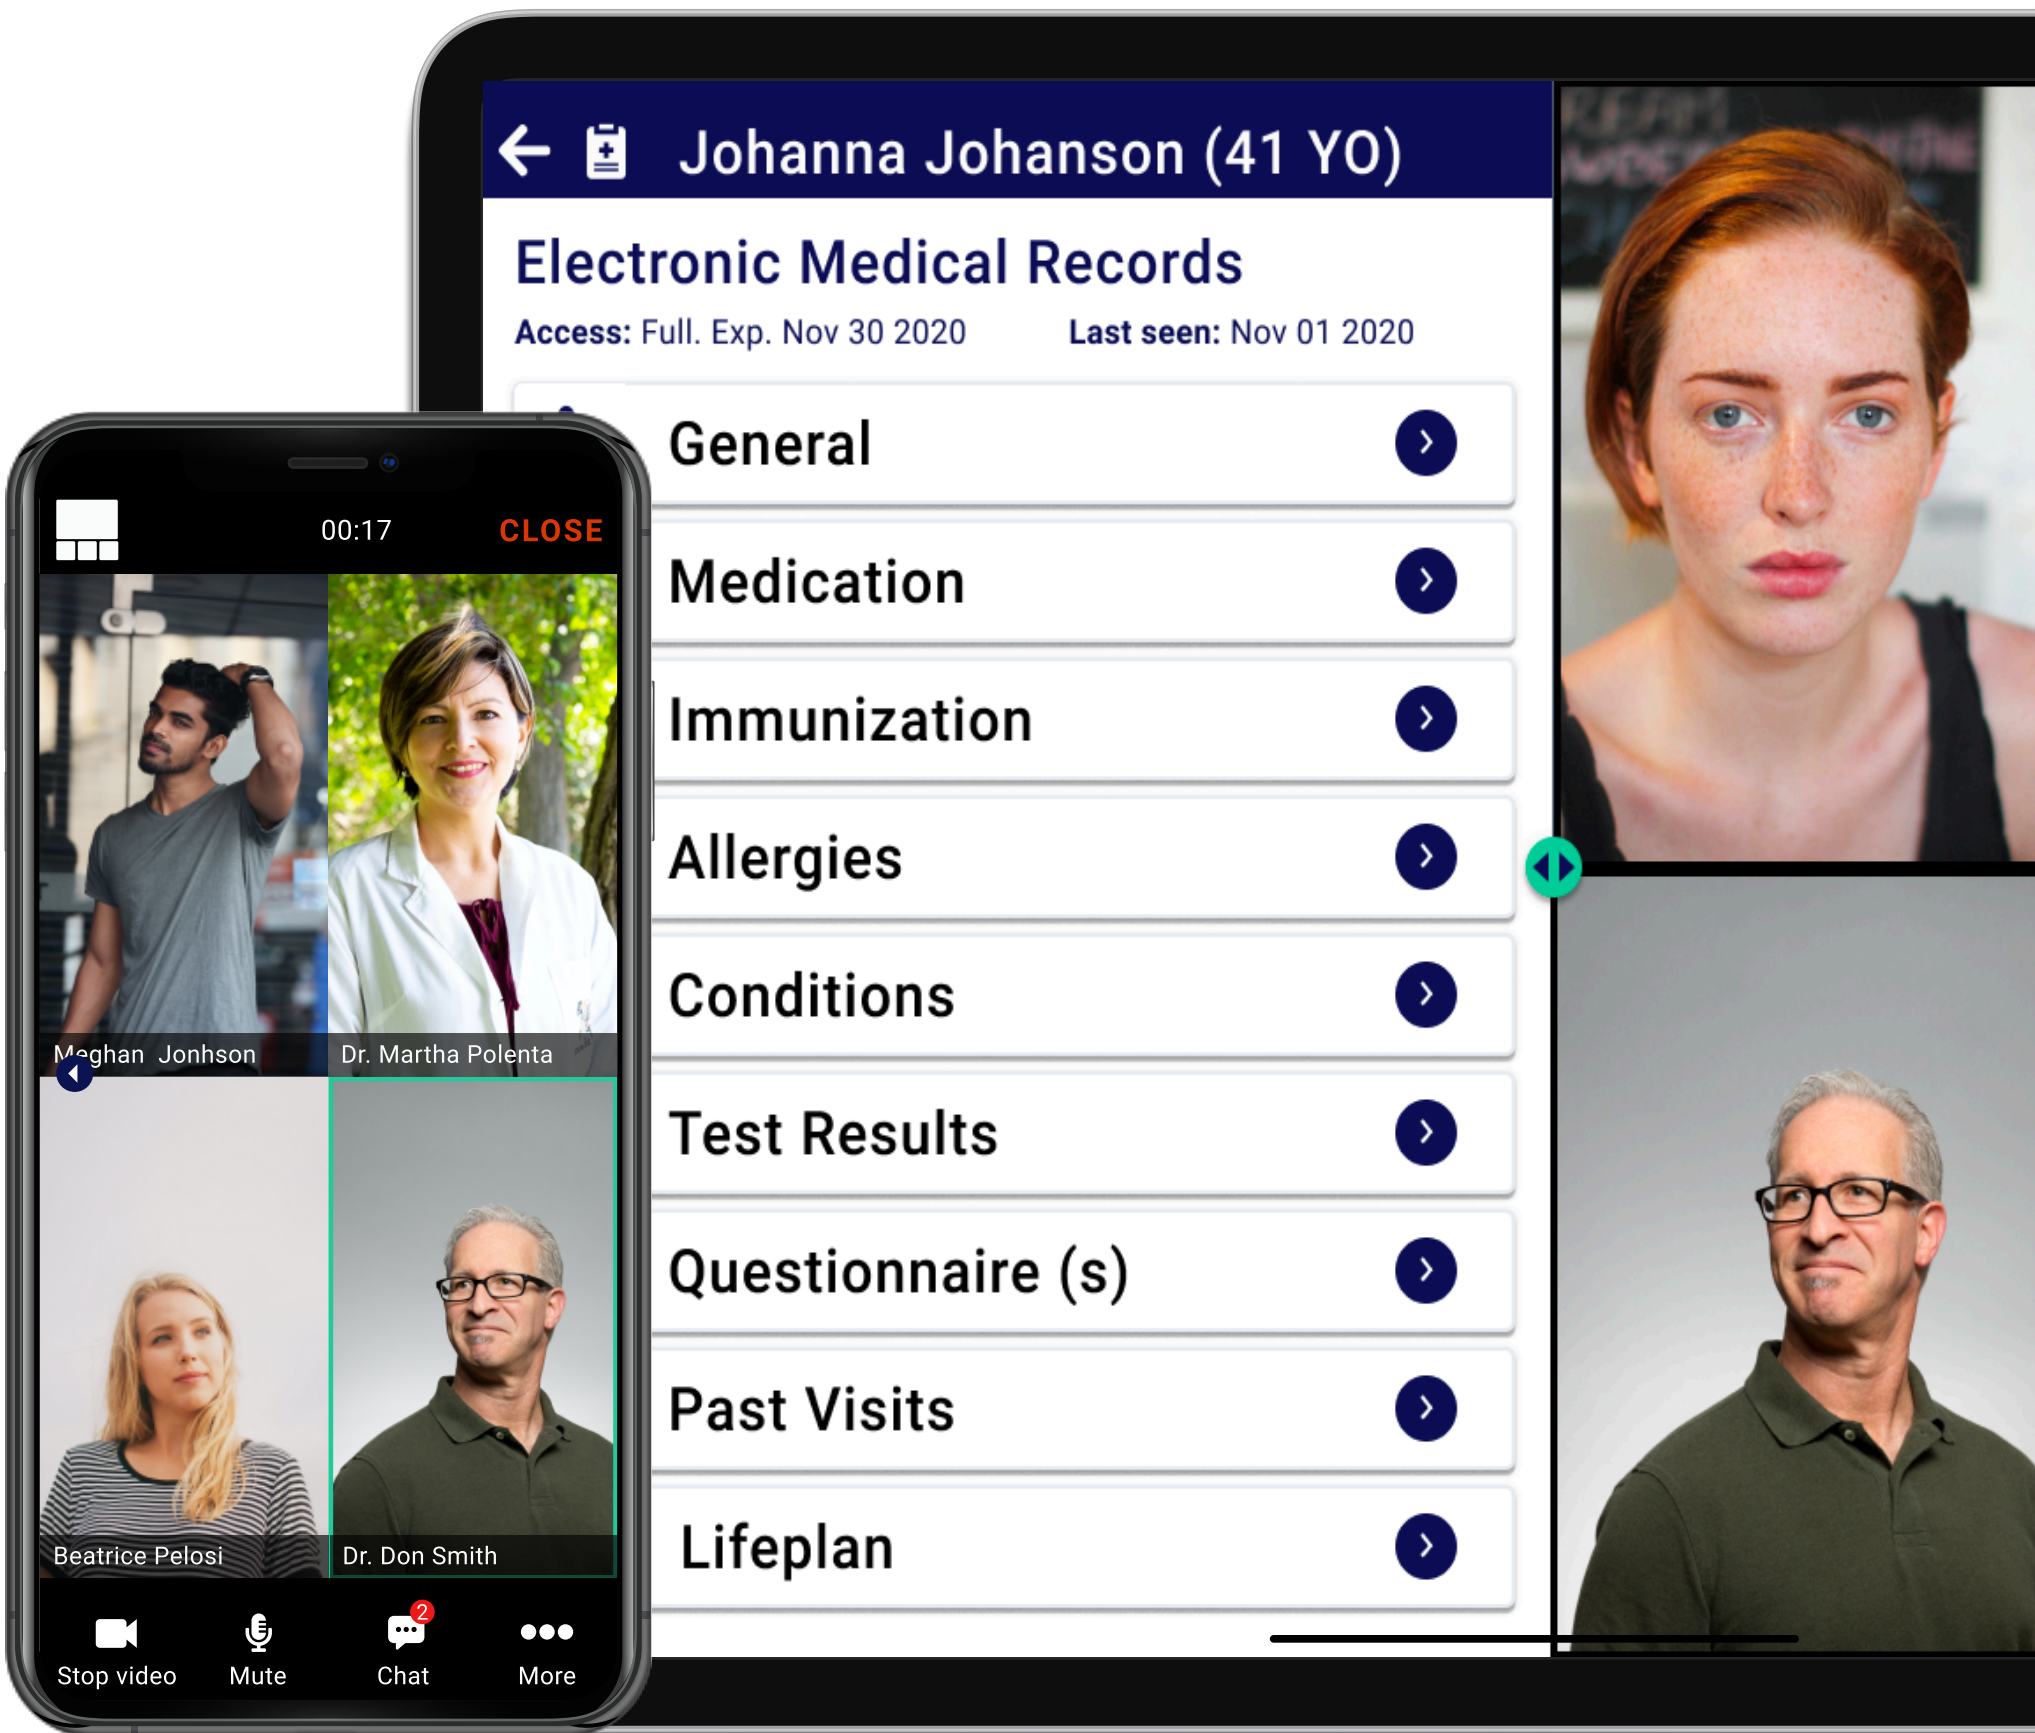

Create private message or video chats with family, friends, coworkers, and providers

Booking and Televisits

Search for in-network providers, schedule virtual appointments, and direct insurance billing

Health Record Portability

Access and share records from a biometric-protected mobile device

“The players and families in the NHL Alumni Association face unique challenges, and the Neeka platform is the only platform we trust. From enhanced privacy needs, to insights based on social determinants of health, Neeka is the most comprehensive wellness management platform.”

Glenn Healey
President, NHL Alumni Association
